**Application
 for development policy film funding**

Please answer the following questions in no more than six pages. The questions are intended to help you present the film project for which you are applying for funding in such a way that there are few follow-up questions from us as possible and as little reworking on your part as necessary. Please contact us if you have any questions about the application process. **Our funder, Brot für die Welt, has set the goal of compensating for all flight emissions through the Climate Collective (klima-kollekte.de). For all other funding lines, this is mandatory. We would appreciate it if you would also compensate for the emissions caused by air travel. 30 percent of the compensation costs can be applied for as a grant from Brot für die Welt.**
